## Application Flow

**Dashboard:-** In Dashboard have facilities of Notifications, Profile, Ready to use app matchings(Zaps), Links to pages Zaps list, Tasks history and Apps connected list.

The screenshot shows the Zapier dashboard. At the top, there's a navigation bar with links for Home, Apps, Explore, Tips & Advice, Upgrade Now, Make a Zap!, NV, and a bell icon. Below the navigation, there are tabs for Dashboard (which is underlined), My Zaps, Task History, and My Apps. The main content area has a heading "Create your own workflow" followed by the text "Know exactly what you want to build? Select the apps you want to connect to start your custom setup." There are two search bars: "Search for an app" with a placeholder "Connect this app..." and another "Search for an app" with a placeholder "with this one!". Below this, there's a section titled "Get started with our most popular workflows" with the subtext "These templates can help you start saving time right away, no matter which apps you use." Four workflow cards are displayed:

- Sync information between databases or spreadsheets** (Icon: document in a circle) - TRY IT - Used by 21.3k people
- Create calendar events from my to-do list** (Icon: calendar in a circle) - TRY IT - Used by 48.6k people
- Send new leads a personal message** (Icon: envelope in a circle) - TRY IT - Used by 143.3k people
- Share content to social media** (Icon: share symbol in a circle) - TRY IT - Used by 34.0k people

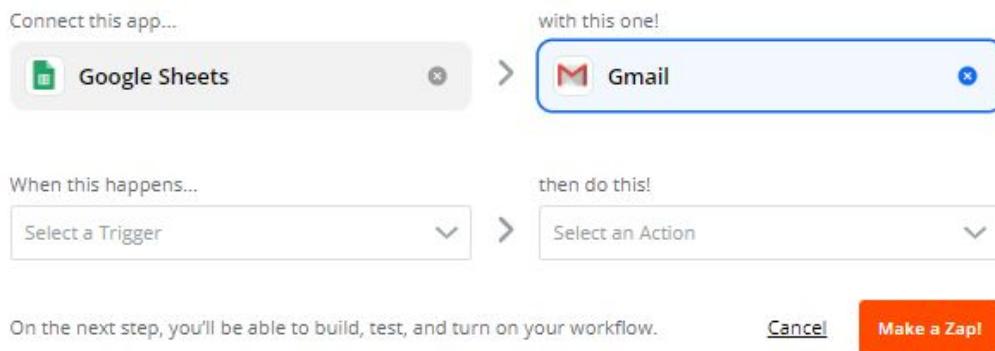

## Design reference

Create Your flow by Selecting the triggering app from the left side and reacting app on the right side.

Connect this app... with this one!

Google Sheets > Gmail

When this happens... then do this!

Select a Trigger Select an Action

On the next step, you'll be able to build, test, and turn on your workflow.

Get started with our most popular templates

These templates can help you start saving time right away, no matter which apps you use.

The screenshot shows the Zapier interface for creating a workflow. On the left, under 'Connect this app...', there is a box for 'Google Sheets' with an 'x' icon. An arrow points to another box on the right labeled 'with this one!' containing 'Gmail' with its own 'x' icon. Below this, a large box contains two dropdown menus: 'When this happens...' and 'then do this!'. The 'When this happens...' dropdown has 'Select a Trigger' and an arrow pointing to the 'Select an Action' dropdown. The 'Select an Action' dropdown is open, showing a list of options: 'Create Draft', 'Send Email', 'Reply to Email', 'Remove Label from Email', 'Add Label to Email', and 'Create Label' (partially visible). A note below the dropdown says 'On the next step, you'll be able to build, test, and turn on your workflow.' At the bottom, a section titled 'Get started with our most popular templates' is shown, with a note: 'These templates can help you start saving time right away, no matter which apps you use.'

### Customize Spreadsheet Row

If you want to use this trigger with Google Team Drives, please add a star to [this bug/issue within Google Drive](#). In the meantime, you can workaround the issue using these steps.

**Spreadsheet (required)**

**Worksheet (required)**

You must have column headers

**Trigger Column (optional)**

Trigger on changes to cells in this column only. Leave this field blank if you want the Zap to trigger on changes to any cell within the row.  
Please note: All new rows will trigger the Zap even if the Trigger column is empty. Add a Filter step to stop the Zap from continuing if thi ... more

**Refresh Fields**

**CONTINUE**

**Can test and continue the configuration,**

The screenshot shows the Zapier configuration interface for a new or updated spreadsheet row in Google Sheets. At the top, there's a header with a Google Sheets icon, the text "When this happens ...", and a "1. New or Updated Spreadsheet Row in Google Sheets" step. To the right are a help icon and a three-dot menu. Below the header, there are three sections with dropdown menus: "Choose App & Event" (with a green checkmark), "Choose Account" (with a green checkmark), and "Customize Spreadsheet Row" (with a green checkmark). A "Find Data" button is on the left and a "SKIP TEST" button is on the right. Below these buttons is a note: "Click any of the buttons below, and we'll test your connection by going out to see if we can find a spreadsheet row in Google Sheets." At the bottom center is a blue "TEST & CONTINUE" button.

When this happens ...

**Go for the same kind of account linking and other settings for right side reaction app.**

The screenshot shows a Zapier workflow editor with the following steps:

- When this happens ...**
  - 1. New or Updated Spreadsheet Row in Google Sheets**
- Do this ...**
  - 2. Send Email in Gmail**

Below the main steps, there is a detailed configuration panel for the "Send Email in Gmail" action:

- Choose App & Event**
  - Choose App (required)**: Gmail
  - Choose Action Event (required)**: Send Email
- Choose Account** (with a green checkmark)
- Customize Email** (with a green checkmark)
- Send Data** (with a green checkmark)

At the bottom of the configuration panel, there is a **Done Editing** button.

**Once mapping(zap) is completed you can activate/turn on the app.**

The screenshot shows the Zapier web interface. At the top, there are navigation links: Dashboard, My Zaps (which is underlined), Task History, and My Apps. Below this, the main title is "Zaps". On the left sidebar, there's a search bar labeled "Filter Zaps...", a section for "PRIVATE FOLDERS" with a "Home" folder containing 1 zap, and a "SHARED FOLDERS" section with a folder icon. Below these are sections for "Need to share your Zaps?" and "Trash" (0 items). The main right area is titled "Home" and shows a single zap card. The zap card has a small checkbox, a "Send email in Gmail" icon, and a "Google Sheets" icon. A tooltip for the zap reads: "INSTANT Send email in Gmail when new or updated spreadsheet row in Google Sheets". To the right of the card is an "ON" toggle switch which is turned on. A vertical menu on the right side of the zap card includes options: Edit, Rename, Move to Folder..., Task History, Copy, and Trash. Below this menu is a rating scale from 1 to 7 with the text "Not likely" at the bottom. The overall interface is clean and modern, typical of a cloud-based automation tool.

## **Billing and Invoice Page:-**

The screenshot shows the Zapier Settings interface. On the left, there's a sidebar with icons for My Profile, Email Notifications, Advanced, Data Management, and Members. The 'Billing and Usage' option is highlighted with a blue background. The main area is titled 'Usage' and shows a summary for a 'Personal Account Free Plan'. It includes metrics for Tasks (1/100), Zaps (1/5), and Usage Reset (Mar 15, 2020). A 'Change Plan' button is also present. Below the usage summary, there's a note about questions and a link to learn about plans and pricing. The 'Payment Information' section indicates the user is on the Free Plan and suggests choosing a plan. The 'Invoice Information' section is partially visible at the bottom.
